Program at a Glance

The Design Certificate of Proficiency Program introduces individuals to all forms of visual communication with a unique tie to emerging technologies. Courses teach working with both print and interactive mediums. Through hands-on applications individuals learn to integrate Design Thinking and Design Theory while working on projects in and out of the classroom.

Individuals completing this program will be qualified for career opportunities as an entry-level designer in print, advertising, social media, and web. Designers are needed in every aspect of business with opportunities in multiple environments.

Space is limited to 24 students.
